According to statistics from GLOBOCAN done in 2022, Breast cancer is the leading cancer in Jamaican women (accounting for 35%). Each year, for every 100,000 women in Jamaica, 71 new cases of breast cancer are diagnosed. With those odds, someone you know will be touched by breast cancer in his/her lifetime, but there is something you can do to help change the odds! We need you to join us in our efforts to reach our goal of "no woman turned away" where no woman seeking assistance from the Jamaica Reach to Recovery will be turned down due to lack of resources or funding. All funds raised will help ease the high cost of treatment and provide counselling and other services.
